

# Covid-19 Prevention Guidelines 2023-2024

## **REVISED** **2023-24** **COVID-19** **PROTOCOLS**

Revisions have been made to our originally published COVID protocols. The following information is a summary of the changed protocols for the 2023-24 season.

- Pre-trip Antigen tests at the school site the day of departure are NO longer required.
- Pre-trip temperature checks (at the school site the day of departure) are required.
- Parent will still turn in a pre-trip health screening form on the day of departure.
- If a student experiences symptoms at camp, and they have permission to test for covid, an antigen test will be provided to the student. If they do not have a permission slip completed, parents will be called and given the option to pick up their child or give verbal permission to the teacher for an antigen test to be used.
- Students testing positive at camp will be sent home. If cabinmates experience symptoms, the same process will be followed.
